

@ Quaker Farms Elementary School

Nutrikids is the point of sale system used in the cafeteria. All students are assigned a PIN number which is also their student ID number. This number is printed on a small card which is given to them in the cafeteria. The student gives the card to the cashier after receiving lunch. The PIN number on this card is used to look up each child's account and record all lunch transactions.

Prepayments can be made by cash or check in any amount and sent in to your child's teacher at any time. This money will be delivered to the cafeteria daily. Online payments are also accepted. Please visit www.myschoolbucks.com to sign up and start making prepayments. You can also view your child's account transactions online.
